WisdomTree: An established ETP provider to access cryptocurrencies

WisdomTree is an established and leading exchange-traded product (ETP) issuer that provides secure and efficient access to cryptocurrencies in a familiar wrapper. With over \$100bn of assets under management globally across ETFs and ETPs covering all asset classes, investors can benefit from our global reach and resources. As a diversified, robust, and scalable business, we can offer cryptocurrency ETPs with highly competitive fees without compromising security or risk management.

In 2019, WisdomTree became the first established ETP provider to launch a physically backed crypto ETP with the WisdomTree Physical Bitcoin. At 0.15%¹, our Bitcoin ETP has one of the lowest fee levels for institutional-grade physical bitcoin ETPs in Europe that are 100% backed by Bitcoin.

The WisdomTree crypto ETP range has 5+ years of proven and successful track record and leverages 20 years of expertise in providing and managing physically backed ETPs for institutional investors. The result is a best-in-class, institutional-grade and low cost range of ten ETPs that provide thoughtful access to individual cryptocurrencies and diversified baskets.

Our institutional-grade crypto ETPs are 100% physically backed and use a dual custody model that leverages regulated custodians. This ensures assets are professionally secured in 'cold storage' and held in segregated wallets. Transparency is paramount to us and our clients, so we clearly disclose all the key characteristics of our crypto ETPs on our dedicated product web pages and material, including staking rewards where applicable.

¹ A portion of the management fee (MER) has been waived, effective from and including 26 March until 31 December 2025. During this period, the MER will be 0.15% per annum. From 1 January 2026, the MER will revert to 0.25% per annum.

Marketing communications issued in jurisdictions outside of the EEA: This document has been issued and approved by WisdomTree UK Limited, which is authorised and regulated by the United Kingdom Financial Conduct Authority.

WisdomTree Ireland Limited and WisdomTree UK Limited are each referred to as “WisdomTree” (as applicable). Our Conflicts of Interest Policy and Inventory are available on request.

This marketing communication has been prepared for professional investors, but the WisdomTree products set out in this document may be available in some jurisdictions to any investors, subject to applicable laws and regulations. As the product may not be authorised or its offering may be restricted in your jurisdiction, it is the responsibility of every person or entity to satisfy themselves as to the full observance of the laws and regulations of the relevant jurisdiction. Prior to any application investors are advised to take all necessary legal, regulatory, tax and investment advice on the suitability and consequences of an investment in the products. Past performance is not a reliable indicator of future performance. Any historical performance included in this document may be based on back testing. Back testing is the process of evaluating an investment strategy by applying it to historical data to simulate what the performance of such strategy would have been. Back tested performance is purely hypothetical and is provided in this document solely for informational purposes. Back tested data does not represent actual performance and should not be interpreted as an indication of actual or future performance. The value of any investment may be affected by exchange rate movements. Any decision to invest should be based on the information contained in the appropriate prospectus and after seeking independent investment, tax and legal advice. These products may not be available in your market or suitable for you. The content of this document does not constitute investment advice nor an offer for sale nor a solicitation of an offer to buy any product or make any investment.

An investment in exchange-traded products (“ETPs”) is dependent on the performance of the underlying index, less costs, but it is not expected to match that performance precisely. ETPs involve numerous risks including among others, general market risks relating to the relevant underlying index, credit risks on the provider of index swaps utilised in the ETP, exchange rate risks, interest rate risks, inflationary risks, liquidity risks and legal and regulatory risks. The information contained in this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of shares in

the United States or any province or territory thereof, where none of the issuers or their products are authorised or registered for distribution and where no prospectus of any of the issuers has been filed with any securities commission or regulatory authority. No document or information in this document should be taken, transmitted or distributed (directly or indirectly) into the United States. None of the issuers, nor any securities issued by them, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes.

This document may contain independent market commentary prepared by WisdomTree based on publicly available information. Although WisdomTree endeavours to ensure the accuracy of the content in this document, WisdomTree does not warrant or guarantee its accuracy or correctness. Any third party data providers used to source the information in this document make no warranties or representation of any kind relating to such data. Where WisdomTree has expressed its own opinions related to product or market activity, these views may change. Neither WisdomTree, nor any affiliate, nor any of their respective officers, directors, partners, or employees accepts any liability whatsoever for any direct or consequential loss arising from any use of this document or its contents.

This document may contain forward looking statements including statements regarding our belief or current expectations with regards to the performance of certain assets classes and/or sectors. Forward looking statements are subject to certain risks, uncertainties and assumptions. There can be no assurance that such statements will be accurate and actual results could differ materially from those anticipated in such statements. WisdomTree strongly recommends that you do not place undue reliance on these forward-looking statements.

The products discussed in this document are issued by WisdomTree Issuer X Limited (the “Issuer”). Investors should read the prospectus of the Issuer before investing and should refer to the section of the prospectus entitled “Risk Factors” for further details of risks associated with an investment in the securities offered by the Issuer.

Securities issued by the Issuer are direct, limited recourse obligations of the Issuer alone and are not obligations of or guaranteed by any of Swissquote Bank Ltd (“Swissquote”), Coinbase Custody Trust Company LLC (“Coinbase”), any of their affiliates or anyone else or any of their affiliates. Each of Swissquote and Coinbase disclaims all and any liability whether arising in tort, contract or otherwise which it might have in respect of this document or its contents otherwise arising in connection herewith.

The product discussed in this document is an unregulated ETP, approved to trade on the London Stock Exchange, SIX Swiss Exchange in Switzerland, Euronext Paris, Euronext

Amsterdam and the Deutsche Börse Xetra in Germany. Cryptocurrencies are a high-risk investment and may not be suitable for all types of investor. Prospective investors should be aware that the price of the underlying asset(s) by which the securities are secured can demonstrate higher volatility than other asset classes and consequently the value of the securities may be extremely volatile. You must ensure that the nature, complexity and risks associated with cryptocurrencies are suitable for your objectives in light of your circumstances and financial position.

The digital assets underlying WisdomTree's exchange traded products are held using secure, institutional-grade custody solutions that prevent unauthorised access or movement. Digital assets are primarily stored offline in cold wallets and their transfer requires authorisation from multiple independent parties with a redundancy of locations, communication methods and authentication devices.

Our operational processes are regularly updated to protect against evolving threats and are kept confidential for security reasons.
